

## 2025

- 👉 **19 projects monitored** across the 3 axes, including 2 initiated by employees.
- 👉 **Renewed support** for 5 associations already subsidized.
- 👉 More than 500 subscribers on Fondation Géotec's LinkedIn page.
- 👉 **Special meetings** between volunteer employees and/or Comex members and project leaders.

## PROJECTS IN THE 3 AXES OF FONDATION GÉOTEC

### Helping people in West Africa

#### ACTING TOGETHER

**#water #sanitation #health #Ivory**

Third support from Fondation Géotec for this association, which manufactures and installs stand-alone water purification units. In 2025, 10 kiosks will be commissioned for 19 villages in the Tabagne region of Côte d'Ivoire. The project will help prevent infections among children and provide access to water for parents of schoolchildren.

#### ELECTRICIENS SANS FRONTIÈRES

**#water #health #Côte d'Ivoire**

This association, already supported 3 times by Fondation Géotec, is planning to build a photovoltaic power plant for a school and a medical center (and maternity ward) in the village of Gbogolo (Séguéla department, north-western Côte d'Ivoire). The beneficiaries are 10,000 inhabitants, the 260 elementary school pupils and the staff who work in these facilities.

### INTER AIDE

**#water #sanitation #Guinea**

This association has already demonstrated its know-how in setting up projects providing concrete support to improve hygiene practices and access to drinking water and sanitation for rural families. In 2025, it will be working with 17,000 inhabitants in 43 villages in the Kankan region (Upper Guinea), establishing a technical diagnosis of access to water and boreholes.

### LES CAJOUTIERS

**#insertion #disability #schooling #Senegal**

The project involves the construction of a boarding school for hearing-impaired children and young people. 114 deaf and hard-of-hearing children from all over the sub-region (Warang) are welcomed into classes with young people from the mainstream: this project is guarantee of integration, progress and better learning for these often neglected children. These inclusive classes are a fine innovation for Senegal.

### ORDER OF MALTA

**#water #health #Senegal**

The project supported meets a major health challenge for the CHOM Hospital Center in Dakar. It aims to build a water storage reservoir to ensure continuous access to drinking water for patients, carers and staff.

### THE CHAIN OF HOPE

**#sanitation #schooling #Togo**

Following on from the project supported in 2024 for the Agoé Nyivé public elementary school, this year the aim is to build latrines for the Agoé Nyivé Nord high school (2,279 students, 53 teachers and 2 disabled students). type of project guarantees safe access to latrines for girls, reinforces hygiene education within the school improves infrastructure.

### HYDRAULICS WITHOUT BORDERS

**#water #sanitation #Togo**

This association, already supported in 2021, has asked the Géotec Foundation to draw up a map of the future works required to meet the drinking water and sanitation needs the Kloti 1 commune.

## Fighting global warming

### APAF INTERNATIONALE

**#agroforestry #Benin**

The supported project is setting up an agroforestry dynamic in 2 villages in the Collines region of Benin. Two community nurseries have been set up, producing seedlings which will then be planted by the farmers (who have been trained beforehand). Fertilizer trees are capable of regenerating degraded soils in 3 or 4 years, improving crop yields.

## Integration in France

### MA GUYANE NAGE

**#training #safety #integration**

This association promotes drowning prevention for the underprivileged populations of French Guiana. It helps isolated communities learn to swim (mobile pools) and trains young people in first aid. It is the second largest club in France in terms of membership (in 2023, over 5,000 people were supported).

**Project presented by Nathalie Butour (Géotec Guyane)**

### BUILDING PERMITS 44 (44)

**#reintegration#justice**

Supported by the French Ministry of Justice, the association's aim is to help convicted and released prisoners reintegrate into society. The funding provided by Fondation Géotec contributes to the implementation of reinforced individual support programs for 1 year (130 people concerned).

### ODYNÉO (69)

**#handicap #insertion**

This association, well established in the Lyon region, aims to establish, over a period of 3 years, an in-depth collaboration between healthcare professionals, residents of 5 medical-social establishments and artists from associations who propose actions/activities/animations based on the presence of clowns with disabled people.

### LIKE THE OTHERS (69)

**#handicap#insertion**

The association's actions are designed to compensate for the virtual absence of facilities to meet the needs of people who have recently become motor-impaired after leaving a rehabilitation center. The project financed by Fondation Géotec aims to support 25 people over a one-year period, to help them overcome the physical, psychological and professional difficulties associated with their new situation.

### **ZIMZAM (13)**

**#handicap #insertion**

This association works to help children, teenagers and adults with motor, mental, sensory, psychological and social disabilities through the practice of circus arts. The project supported Fondation Géotec is a social inclusion project in response to severe territorial constraints, and involves setting up an adapted traveling circus tent.

### **BREAD AND ROSES (13)**

**#training #insertion**

The innovative aspect of the project supported by this association lies in the launch of a free training course leading to a certificate, designed and adapted for a group of women who are far from employment and in precarious situations. The aim is to provide these women with a CQP florist's assistant qualification, and to help them find lasting employment and stabilize their social situation.

### **CHRS MONTPELLIER (13)**

**#insertion #housing**

The Centre d'hébergement et de réinsertion sociale E.Bouissonnade in Montpellier provides shelter for women victims domestic violence and their children. Fondation Géotec's funding is contributing to the refurbishment and embellishment of this structure, which will provide a place conducive to the personal reconstruction of the women housed and the development of their children.

### **THÉÂTRE DE L'EUROPE - FRESNES EN SCÈNE (94)**

**#insertion #prison #theater**

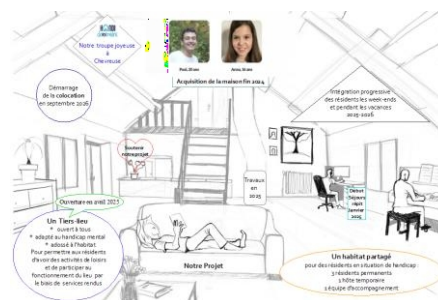

Fondation Géotec supports the creation artistic workshops in prisons: Projet Fresnes sur Scène. This project offers artistic and cultural opportunities to 11 inmates over a 3-month period. Their work is presented at the Théâtre de l'Odéon in Paris and the Théâtre 71 in Malakoff. These workshops are the first step towards social reintegration, helping to build self-esteem and team spirit.

### **HANDIDEUX MAINS (78)**

**#insertion #housing**

The project supported by Fondation Géotec involves the creation of a shared, supported living environment for mentally handicapped residents, backed up by a third-party place of occupation open to all and adapted to the mentally handicapped.

**Project presented by Frédéric Gleizes (GAIDF)**

## ICI&2MAINS (La Ruche) (78)

### #Insertion

This association is a partner, via a franchise, of the national network La Ruche, a forerunner in the support of positive impact projects in France since 2008. The project supported by the Géotec Foundation concerns the 7<sup>th</sup> edition of the "Coup d'envoi" program, which, in 2025, will provide 6-month support for 12 people who have lost touch with the world of work and wish to turn their entrepreneurial project into a reality.

## GENESES (71)

### #insertion

The project supported by Fondation Géotec "Les parcours Génèses" is an initiative that has been running since 2015. It consists of a 6-month remobilization and reintegration program/course aimed primarily at fragile, "invisible" young people, out of the school system and on the bangs of employment. The association is based in a Zone de Revitalisation Rurale (rural revitalization zone) in the Saône et Loire département.

## PRIVILEGED MEETING TIMES
